SCHOOL REPORT.

In presenting this report of the condition of our schools we can say that we find much to commend in the results of the past year ; with possibly one exception, the work accomplished has been quite satisfactory. The teachers have been faithful and earnest.

We wish the parents would make a special effort to become more familiar with the schoolroom and present methods of instruction, for only those who see the school as it is can justly censure, or commend.

We wish every possible effort might be put forth to raise the standard of our schools. Only a few years ago the schools of New Hampshire ranked second with those of the other states in the Union, now they stand the twenty-sixth. Why is this? Have the schools been neglected? How can we remedy this matter?

Much needed text books, readers, and arithmetics have been purchased to be placed in the schools at the opening of the spring term. The dictionaries in use are in a very bad condition. We think they should be replaced by new ones of later edition.

New maps of the U. S. have been hung in four of our schoolrooms.

The buildings in Division 1 have been repaired, and are now in very good condition.

A few repairs are needed in No. 4 ; if schools Nos. 2 and 4 could be combined it would be a saving of expense, and the scholars would receive much better advantages.

More blackboard room is needed in No. 3.
